

MISSION

To lead Africa's digital transformation through innovation, inclusion, and sustainability consulting. Mafichoni Limited offers consultancy for ICT projects, training, research, and all other digital transformation activities, with a team renowned for award-winning hybrid management and leadership delivering IT, broadcasting, telecommunications, and digital transformation solutions across the continent.

Six Service Pillars

- Digital Infrastructure — Design, deployment, and optimization of mission-critical digital infrastructure across Africa.
- Digital Governance — Building robust governance frameworks for secure, accountable digital ecosystems.
- Digital Assessments — Evidence-based research and impact evaluations informing digital economy strategies.
- Digital Inclusion — Ensuring equitable access and participation in the digital economy.
- Digital Skills & Training — Building human capital for Africa's digital transformation through the Mafichoni Academy.
- Digital Advocacy — Shaping policy discourse and stakeholder engagement for inclusive digital ecosystems.

Track Record

- 25+ years of ICT, broadcasting, telecommunications, and digital transformation experience
- Delivered projects across 15+ African countries
- Award-winning hybrid management and leadership track record
- Consulting engagements for governments, regulators, universities, and enterprises
